ALFONSO ELDER, A.B., A.M., Ed.D.

President of North Carolina College

Seniors of 1953

Dear Friends:

For each one of you, I wish the very best that life can offer.

It is my feeling that some members of your class will achieve distinction in life and do the things that people proclaim great.

It is my hope that each one of you will perform the small day-by-day responsibilities in a great way and that you will find happiness in doing well whatever you have to do.

If you do your very best as you perform all of your responsibilities, large and small, you will fulfill our greatest hope for you.

Sincerely yours,

ALBERT E. MANLEY, B.S., A.M., Ed.D.

THE YEAR IN RETROSPECT

This is an attempt to create a *New EAGLE*. We have deleted those unnecessary items, made "brevity" the password for individual portraits, and insisted that scenes depicting numerous phases of student life be the nucleus about which lesser activities would revolve. In order that your yearbook would be a complete resume, we have begun our scenes with January 1952 and continued through January 1953. As the years pass, many of these incidents will be forgotten, but we hope that the 1953 EAGLE will serve to keep warm in your memories the many sorrows, and joys that you experienced while here.

This year's staff felt that a section on student life would adequately recreate those experiences which typify student life at N. C. C.

Senior Class Officers

We, the graduating class of 1953 say to the classes of 1954, 1955, and 1956, that we hope when it is your year to graduate, that you can look back over your four years here and get the same feeling that we get when we reminisce. We hope that we can leave half the mark on "Dear ole' N. C. C." as it is leaving on us. We say to you, strive on, and when you have finally reached the goal for which you are striving, you will find that it was well worth the effort. With determination, and persistence, you will make it with flying colors. We wish for you the best of luck.

The time spent on the sloping hill, the verdant green is rapidly diminishing, and we realize that there is so much to do. Little incoherent ideas that we had as freshmen have blossomed into real ambitions that must be accomplished. It is said that once you acknowledge that there is much you do not know, you are finally a scholar. Perhaps this is truly a class of Platos.

We have unselfishly contributed those things that we knew best, and have willingly subordinated ourselves when experience proved that others were authorities.
